CREATED ESPECIALLY FOR:

Meets and or exceeds the ANSI A300
 Standard for tree fertilization

GEOGREEN™

SPECIALTY FERTILIZER BLENDS

CUSTOM BLEND

27-2-10-7S

A LOW SALT, SLOW RELEASE FERTILIZER WITH MICRONUTRIENTS AND HUMATES.

This fertilizer is specifically designed for the soils in the Sioux Falls area. It will match well with most soil situations and common nutrient deficiencies in our soils.

This low salt formulation contains slow release ingredients which do not dissolve in water so they will resist leaching and be available for your trees longer.

I have included elemental Sulfur to temporarily buffer the soil pH to make certain micro-nutrients available to trees.

This formulation also has Humates and Citric acid to improve and promote soil health and increased microbiological activity.

APPLICATIONS:

All applications will be done in accordance with the ANSI A300 standards for Arboriculture operations. These are general recommendations.

Soil Tests are required before each application.

Fall is best time for applications (Sept.-Oct.).

Pricing is based on square foot area of critical root zone within the drip line.

Pricing:

Area	Price
0 to 800 square feet	\$200 base cost
801 - 2,000 square feet	\$0.25 per sq. ft.
2,001+ square feet	\$0.20 per sq. ft.

Information regarding the contents and levels of metals in this product is available on the internet at <http://aapfco.org/metals.htm>

GUARANTEED ANALYSIS:

Nitrogen (N).....	27.0%
8.3% Urea Nitrogen	
5.2% Slowly Available Water Soluble Nitrogen	
13.5% Water Insoluble Nitrogen*	
Available Phosphate [P ₂ O ₅].....	2.0%
Soluble Potash [K ₂ O].....	10.0%
Magnesium [Mg].....	1.0%
1.0% Water Soluble Magnesium [Mg]	
Sulfur [S].....	7.0%
